

Payment Plan Agreement

District 204 offers families the option of identifying a payment plan to assist in the payment of music, activity, and athletic fees. This payment plan is an agreement between the parent/legal educational custodian and the school, to clarify the method and timelines of payment. The plan will identify the amount to be paid and the dates of which the amounts will be paid. If the payment plan is not followed it is understood that the student may be held from participating in their organization until communication between the home and school has been made to discuss the payment plan. The payment plan may include up to, but no more than, 4 installments toward the 100 dollar fee.

Student Name:

Activity:

1st Installment _____ dollars (due before the 1st competition)
2nd Installment _____ dollars
3rd Installment _____ dollars
4th Installment _____ dollars

Total: 100 dollars (due before the last competition)

Guidelines for this agreement:

1. The student and family will verbally commit to making payments on this payment plan.
2. A copy of the payment plan will be provided to the parent, coach, and the main office (with deposit of the 1st installment).
3. Open communication between the school and home must be kept if payment issues arise. Without communication to the school, the school can make the determination to keep the student from participating in their organization.
