This unit includes, as part of its material, a visit by our students to the Robert Crown Health Center in Hinsdale.

At the health center, students have a presentation on the growth changes that are about to begin in their bodies with the onset of puberty. They also will see a twenty-minute film on human growth and development.

The purpose of the parents' meeting is to inform you of the material your child will be seeing and to answer any questions you might have about the Robert Crown student visitation. If you have any questions about this unit or about the meeting, please contact me. I hope you will be able to attend one of the sessions.

Sincerely,

Lena Guerrieri
Principal
