Step 4 - Select a Start Date & End Date for calculating attendance. (Use your Pre-test date for Start Date and your Post-test date for End Date)

Step 5 - Use the Attendance % column to find students with 90% or less

(Optional - sort values by clicking on the Attendance % heading)

Please Note: When sorting by Attendance %, 100% will appear as the lowest value instead of the highest. (Optional - export to Excel Spreadsheet by clicking **XLSX** in the upper right corner.)
