

Erin's Law Parent Information

Dear Parents,

In response to concerns regarding child safety and vulnerability to sexual abuse, the State of Illinois requires schools to provide instruction in personal safety and awareness of safe/unsafe situations. This law is known as Erin's law. In each grade level, the program will discuss abuse prevention at an age-appropriate level for our students.

Our schools are committed to the safety and well-being of our students and that is why we feel that providing this program is so important.

We are providing a live virtual parent information night for first and fourth grade parents on Tuesday, September 26th from 6:30pm-7:30pm.

The live presentation is accessible online via Google Meet online at:
