

Dear District 204 Parent/Guardian,

We are committed to providing the safest possible learning environment for our students and staff by taking proactive steps to secure our schools. We want to ensure they have a safe place to learn, work and grow. To maintain our safety standards and prepare for the societal threat of an intruder inside one of our schools, we adhere to the ALICE critical incident response strategy.

ALICE empowers individuals to participate in their survival using proactive options-based responses. ALICE is an acronym for Alert, Lockdown, Inform, Counter and Evacuate. These proactive strategies allow safety decisions to be taken during an emergency that will increase the level of safety until additional help arrives.

All Indian Prairie School District staff receive training on the ALICE strategies through online eLearning modules and scenario-based training conducted by an ALICE certified Instructor. We are very pleased with the combination of classroom and hands-on training that we believe is the right choice for our students, staff, schools, and community.

Sincerely,

Dr. Adrian Talley  
Superintendent
