

Dr. Rubin's Mini Medical School for High School Students

Dr. Rubin's Mini-Medical School is a community service program created in 2005. Our programs are designed to encourage motivated high school students to become healthcare providers: physicians, surgeons, nurses, etc. Applications for the Class of 2024 are now available on our website: www.MiniMedicalSchool.com.

Our winter program is competitive and for students in grades 10, 11 and 12. This year we are returning to our original format with all learning in person. Six sessions will be held at the Edward Hospital Education Center in Naperville IL on the following dates:

Saturdays	Jan 20	Jan 27	Feb 3	Feb 17	Feb 24	Mar 16
Sundays	Jan 21	Jan 28	Feb 4	Feb 18	Feb 25	Mar 17

Students will be provided with an overview of the materials learned in medical school and experience a long list of procedures typically learned in a real school ranging from elements of a physical exam to suturing a laceration to even delivering a newborn baby.

Admission to this program is competitive. There is no fee to apply. This program is appropriate for advanced sophomores, juniors, and senior students. Freshmen are not considered. Visit our website for more details. The application for the Class of 2024 can be found on our website:
